EDUCATION

The Evergreen State College, 2014
BA/BS Computer Science and Photography

SKILLS

I focus on web programming with JavaScript — making contemporary browser applications and scalable node.js services.

And more:

CSS, HTML, git, React, node.js, npm, browserify, various databases, realtime data, PHP, bash, typography, Photoshop, Illustrator, Indesign

EXPERIENCE

INVINTUS MEDIA
Olympia, WA
Developer
June 2016 – Feb 2019

I worked with a small team building browser applications and backend systems for distributing live video and realtime data

FRESH CONSULTING
Seattle, WA
Frontend developer
Aug 2015 – Oct 2015

As a contract developer i worked on diverse projects with JavaScript and PHP – single page apps, node.js command line tools, and CMS driven websites

SLOW CLOUDS
Olympia, WA
Web developer/graphic designer
March 2014 – Sept 2014

Designed and built visually impressive, performant websites at this small design studio

EVERGREEN STATE COLLEGE
Olympia, WA
Web programming intern
Jan 2014 – March 2014

I worked closely with a staff programmer on building a new feature for the college's registration website. We created a way for students to write directly to registration staff while submitting requests. Code was PHP and SQL, using Drupal as a CMS
