EXPERIENCE

INVINTUS MEDIA

Developer
June 2016 – present

I worked with a small team building browser applications and backend systems for distributing live video and realtime data

FRESH CONSULTING

Frontend developer
Aug 2015 – Oct 2015

As a contract developer i worked on diverse projects with JavaScript and PHP – single page apps, node.js command line tools, and CMS driven websites

SLOWCLOUDS

Web developer/graphic designer
March 2014 – Sept 2014

Designed and built visually impressive, performant websites at this small design studio

EVERGREEN STATE COLLEGE

Web Programming Intern
June 2013 – March 2014

I worked closely with a staff programmer on building a new feature for the college's registration website. We created a way for students to write directly to registration staff while submitting requests. Code was PHP and SQL, using Drupal as a CMS
